Introducing the new World Class

- Replaceable Speed Wrap Internal Liner
- ABS Base Cap to Prevent Cup Sink
- Available with Locking Ferrule for High Wind Courses
- No Internal Paint to Chip
- Zirconium Finish for Ultimate Protection
- Die Cast in High Grade Aluminum

Pro Hole-Cup
Part No. 253AL

Pro Cup base
Part No. 253B

New for 2010 the Pinseeker PRO Hole-Cup has been designed and finished to exacting standards resulting in a world class hole cup and locking ferrule system.

By clipping in the unique ABS Base Cap into the bottom of the hole cup, the cup will not sink into the green once it is set. It will also prevent flagpins from bottoming out.

Unique Internal Speed Wrap Liners...

Ensure your cups remain perfectly white with our white internal liners, eliminating the need for painting. The wraps (supplied flat) can easily be changed on a weekly basis or for special events. Full colour logos can also be added for your corporate events.

Mow-Over Broken Tee Caddy

A unique marker to collect broken tees from your teeing areas whilst meeting the requirement for an official measurement point.

The standard design is labelled "Broken Tee" with the symbol of a broken tee. It is also possible to get your own decal design with for example hole distance or your club / sponsor logo.

Simply install with a standard hole cutter since the circumference is the same as a standard hole cup.
